DETAILED ACTION

Election/Restrictions

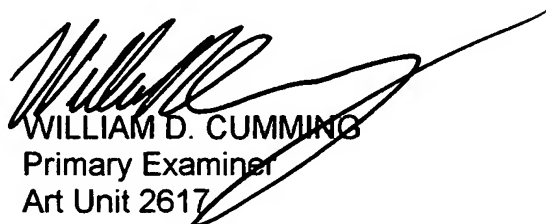

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 6-17, drawn to a telecommunication method in a radiotelephone system being a zoned or cellular radiotelephone system having handoff with mobile assisted or initiated, classified in class 455, subclass 437.
 - II. Claims 18-22, drawn to a telecommunication device having a transmitter and receiver at the same station with radiotelephone equipment detail, classified in class 455, subclass 550.1.
 - III. Claims 23 and 24, drawn to a telecommunication device having a transmitter and receiver at the same station with radiotelephone equipment detail having switching unit detail, classified in class 455, subclass 560.
2. The inventions are distinct, each from the other because of the following reasons:
 - a. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a mobile station. See MPEP § 806.05(d).

- b. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
 - c. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group III, restriction for examination purposes as indicated is proper.
 - d. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 3. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **WILLIAM D. CUMMING** whose telephone number is **571-272-7861**. The examiner can normally be reached on Monday-Thursday 11am-8:30pm.
